## Reports

### Chair

Brian Mathews, Chair, presented slides *[lightly copy-edited]*:

- Brian's month of improvement planning was completely sidelined by COVID-19.
- Brian has been working with different departments to plan contingencies and make sure we're prepared for the future.
- We have been actively reaching out to our business partners and venue to discuss "what-ifs" and options.
- Brian is also essential staff that has been working mandatory OT for the last three weeks, which is why all non-COVID-related projects were delayed.

### Infrastructure

Ash "Bunny" Butler, Director of Infrastructure, presented slides *[lightly copy-edited]*:

- Bunny has been trying to work with her contacts to figure out what the options are for us as we go forward. How to plan the most responsibly and talk to folks to get the information for the contingencies that Brian mentioned already while still getting things moving to plan our convention.
- As part of COVID-19 planning, the Hyatt is slowing down or temporarily ceasing most of its operations until May 17. If you are having trouble contacting them by phone if you need anything regarding a reservation, please email them and note it could be up to 1-2 days before they respond but they will get to you.
- We are still working with our contacts to try to plan things though the process has slowed as many of my contacts across the industries were deemed non-essential, are swamped by processing all the cancelled events from March through May, or otherwise harder to coordinate with right now.
  - (Bunny misses meetings with her contacts very much at this point.)
- COVID-19 has really affected all the industries that Infrastructure interfaces with right now. So please be patient as we do really want to help, but everything is weird for everyone.

- Bunny would also like to just take a moment to remind everyone to be kind to each other in these trying times. Everyone is going through things right now, but we'll get through it if we support each other through it. Thanks.
